Hi Mike

Can you dig up the fact sheet on GP Crossett?

Thanks!

Please watch the video at:

http://www.huffingtonpost.com/2011/10/12/arkansas-koch-industries-plant-high-rates-of-cancer_n_1007148.html

Israel tells me that he has previously coordinated with folks and ADEQ went out to investigate.

After seeing the video below, it is difficult to believe there is no water quality problem - the oil is visible in the stream.

I am asking that Region 6 Divisions do the following:

- 1- share any reports from the state with OEJTA
- 2- let us know if/when/how your Division plans to look into the allegations about air and water pollution, independent of the state
- 3- include us, to extent possible, in any discussions

We are planning to visit this community, gather more information, and will make contacts regarding the health issues.
